

## SAFETY DATA SHEET BIODIESEL

According to Regulation (EU) No 2015/830

### SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

#### 1.1. Product identifier

Product name                      **BIODIESEL**

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses                      It used as fuel for vehicles with diesel motor.  
Uses advised against                Do not use as aircraft fuel, cleaning agents and solvents.

#### 1.3. Details of the supplier of the safety data sheet

Supplier                                **Akpet Akaryakıt Dağıtım A.Ş.**  
Akatlar Mahallesi, Ebululla Mardin Caddesi  
No: 22 Maya Park Tower I, 34335  
Beşiktaş / İstanbul / Turkey  
Tel: +90 212 376 66 00  
www.lukoil.com.tr  
e-mail: info@lukoil.com.tr

Contact Person                      HSE Manager

#### 1.4. Emergency telephone number

LUKOIL: +90 444 45 85 (7/24)

### SECTION 2: HAZARDS IDENTIFICATION

#### 2.1. Classification of the substance or mixture

##### Classification (EC 1272/2008)

Physical and Chemical Hazards    Flam. Liq. 3 - H226  
Human health                          Carc. 2 - H351; Asp. Tox. 1 - H304  
Environment                          Aquatic Chronic 2 - H411

The Full Text for all hazard statements are displayed in section 16.

#### 2.2. Label elements

Label In Accordance With (EC) No. 1272/2008

Signal Word                          Danger  
Content                                Fuel, diesel  
Hazard Statements

H226                                  Flammable liquid and vapour  
H304                                  May be fatal if swallowed and enters airways.

## SAFETY DATA SHEET BIODIESEL

According to Regulation (EU) No 2015/830

H351	Suspected of causing cancer.
H411	Toxic to aquatic life with long lasting effects.
EUH066	Repeated exposure may cause skin dryness or cracking.

### Precautionary Statements

P210	Keep away from heat/sparks/open flames/hot surfaces. - No smoking.
P243	Take precautionary measures against static discharge.
P273	Avoid release to the environment.
P260	Do not breathe vapours.
P280	Wear protective gloves.
P301+312	IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.
P331	Do NOT induce vomiting.
P370+378	In case of fire: Use foam, carbon dioxide or dry powder for extinction.
P501	Dispose of contents/container in accordance with national regulations.

### 2.3. Other hazards

Inhalation of high vapor concentrations may cause drowsiness, dizziness, headache, nausea and loss of coordination. In case of prolonged inhalation may occur unconsciousness. Prolonged or repeated contact with skin may cause redness, itching, irritation, eczema/cracking and oily acnes. Components of the product may be absorbed through the skin into the body. May cause damage to the liver. Suspected cancer risk. Flowing droplets of the product if inhaled when descending into the stomach or vomiting pass into the lungs can cause serious chemical lung inflammation.

## SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

### 3.1. Substances

Not applicable.

### 3.2. Mixtures

Name	EC No.	CAS No.	Content	Classification (EC 1272/2008)
Fuel, diesel	269-822-7	68334-30-5	95-99%	EUH066 Flam. Liq. 3 - H226 Carc. 2 - H351 Asp. Tox. 1 - H304 Aquatic Chronic 2 - H411

The Full Text for all hazard statements are displayed in section 16.

### Composition Comments

The data shown are in accordance with the latest EC Directives.

## SECTION 4: FIRST AID MEASURES

### 4.1. Description of first aid measures

#### General information

General first aid, rest, warmth and fresh air. Get medical attention if any discomfort continues.

#### Inhalation

Move into fresh air and keep at rest. Rinse nose and mouth with water. If necessary, should be applied artificial respiration and heart massage. If there should be given oxygen. Get medical attention if any discomfort continues.

#### Ingestion

Immediately rinse mouth. Keep person under observation. Do not induce vomiting.  
If vomiting occurs, keep head low. Transport immediately to hospital and bring along these instructions.

## **SAFETY DATA SHEET** **BIODIESEL**

According to Regulation (EU) No 2015/830

### **Skin contact**

Immediately remove contaminated clothing. Wash off promptly and flush contaminated skin with water.

Promptly remove clothing if soaked through and flush skin with water.

Large quantities : Remove contaminated clothing. Flush skin thoroughly with water. Get medical attention if any discomfort continues.

### **Eye contact**

Make sure to remove any contact lenses from the eyes before rinsing.

Promptly wash eyes with plenty of water while lifting the eye lids. Get medical attention promptly if symptoms occur after washing.

### **4.2. Most important symptoms and effects, both acute and delayed**

**Inhalation** : Upper respiratory irritation, cough.

**Ingestion** : Nausea, vomiting, diarrhea.

**Skin contact** : May cause redness and irritation.

**Eye contact** : Eye irritation, redness, lacrimation.

### **4.3. Indication of any immediate medical attention and special treatment needed**

Treat Symptomatically.

## **SECTION 5: FIREFIGHTING MEASURES**

### **5.1. Extinguishing media**

#### **Extinguishing media**

**Use:** Foam. Carbon dioxide (CO<sub>2</sub>). Dry chemicals, sand, earth, water mist.

**Unsuitable extinguishing media** DO NOT use water jet.

### **5.2. Special hazards arising from the substance or mixture**

#### **Unusual Fire & Explosion Hazards**

Vapours may form explosive mixtures with air.

Vapor is heavier than air so that it can leaking to sewer system and may reach to further ignition sources.

#### **Specific hazards**

Result of thermal decomposition may occur fume, carbon oxides and organic compounds with low molecular weight compounds which are not yet considered. Sulfur oxides (SO<sub>x</sub>). Nitrogen oxides (NO<sub>x</sub>).

### **5.3. Advice for firefighters**

#### **Special Fire Fighting Procedures**

Dike and collect extinguishing water.

Keep away all non-emergency personnel from fire area.

Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.

Fires in enclosed places should be extinguished by trained personnel wearing protective clothing and an oxygen mask.

#### **Protective equipment for fire-fighters**

Self contained breathing apparatus and full protective clothing must be worn in case of fire.

## **SECTION 6: ACCIDENTAL RELEASE MEASURES**

### **6.1. Personal precautions, protective equipment and emergency procedures**

Wear protective clothing as described in Section 8 of this safety data sheet.

Do not smoke, use open fire or other sources of ignition (cigarette, portable electrical devices such as battery-operated flashlight, radio, mobile phone). Immediately shut the devices in the environment which can cause sparkles.

Provide adequate ventilation. In case of spills, beware of slippery floors and surfaces.

Immediately ventilate the area by opening doors and windows when diesel leak is defined in the enclosed environment. Shut off the diesel flow by closing diesel cylinders, hood or valves. Continue ventilation until the diesel smell is removed in the environment.

## SAFETY DATA SHEET BIODIESEL

According to Regulation (EU) No 2015/830

Keep away from all objects that can cause ignition and sparkles when diesel leak is defined in the open environment. Disable all motor vehicle from entering leak area. Try to shut off the diesel flow with a suitable valve. Evacuate the area. Leak may be prevented from spreading by spraying water with fog nozzle and shielding according to the direction of the wind.

### 6.2. Environmental precautions

Prevent spreading over wide areas (e.g. enclosing). Do not contaminate water. In case of spilled to sewer or water environment informed the local authorities.

### 6.3. Methods and material for containment and cleaning up

Absorb spilled product such as vermiculite, sand or (without absorbing water) suitable non-combustible, absorbing materials and place a container for later disposal. Wash the area with soap and water. Spills and contaminated materials are collected from the work area as soon as possible and placed into a suitable container and ingredients are indicated on the container.

### 6.4. Reference to other sections

For personal protection, see section 8.  
See section 11 for additional information on health hazards.  
For waste disposal, see section 13.

## SECTION 7: HANDLING AND STORAGE

### 7.1. Precautions for safe handling

Avoid contact with eyes and skin. Use appropriate goggles and gloves. Keep away from heat, sparks and open flame. During application and drying, solvent vapours will be emitted. Do not eat, drink or smoke when using the product. If it is suspected of sulphur compounds found in product, check the atmosphere for the amount of H<sub>2</sub>S.

### 7.2. Conditions for safe storage, including any incompatibilities

Store in tightly closed original container in a dry, cool and well-ventilated place. Keep away from food, drink and animal feeding stuffs. Protect against physical damage and/or friction. Protect from heat, sparks and flame. Keep in a cool, well ventilated area. Store away from incompatible materials. It should be stored in tanks designing according to the product. Storage tanks should be labeled and should be kept closed when out of use. Do not remove the warning signs since some products may be present in empty tanks. Despite the possibility of the empty tanks containing product vapor should not be done cutting, welding, soldering processes. If the concentration of hydrocarbon vapor is more than 1%, oxygen concentration is less than 20% in the tank should not be entered without oxygen mask. There is possibility of ignition vapour of product are collected in the storage tanks. Therefore, static electricity must be discharged. Measures should be taken against the igniton source while filling and discharge. Equipments such as pumps etc. must be earthed or transmission cables must be connected each other by a cable to avoid accumulation of static electricity.

### 7.3. Specific end use(s)

The identified uses for this product are detailed in Section 1.2.

## SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

### 8.1. Control parameters

Name	STD	TWA - 8 Hrs	STEL - 15 Min	Notes
Fuel, diesel	OEL		5 mg/m <sup>3</sup>	

OEL = Occupational Exposure Limit.

## SAFETY DATA SHEET BIODIESEL

According to Regulation (EU) No 2015/830

### 8.2. Exposure controls

#### Protective equipment

#### Process conditions

Provide eyewash, quick drench.

#### Engineering measures

Provide adequate ventilation, including appropriate local extraction, to ensure that the defined occupational exposure limit is not exceeded.

#### Respiratory equipment

Appropriate respiratory equipment should be used when the possibility of exposure to hydrocarbon vapor.

#### Hand protection

For prolonged or repeated skin contact use suitable protective gloves.

#### Eye protection

Wear approved safety goggles.

The most suitable glove must be chosen in consultation with the gloves supplier, who can inform about the breakthrough time of the glove material.

#### Hygiene measures

Promptly remove non-impervious clothing that becomes contaminated. When using do not eat, drink or smoke.

Wash hands after contact. Wash promptly if skin becomes contaminated.

#### Skin protection

Protective clothing should be worn. Anti-static and flame-retardant protective clothing is recommended to wear.

#### Environmental Exposure Controls

Please act in accordance with local and national laws.

## SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

### 9.1. Information on basic physical and chemical properties

Identifier	Unit	Value	Test method
Appearance		Liquid	
Colour		Yellow	
Odour		Characteristic.	
Density, 15 °C	kg/m <sup>3</sup>	820 – 845	TS 1013 EN ISO 3675 TS EN ISO 12185
Flash Point	°C	>55	TS EN ISO 2719
Auto-ignition temperature	°C	≥225	
Melting point / freezing point	°C	-40 - 6	
Kinematic Viscosity (@40°C)	cSt	2,0-4,5	TS 1451 EN ISO 3104
Sulfur	% weight	Max.0,001	TS EN ISO 20846
Polycyclic Aromatic Hydrocarbons	% weight	Max.8	TS EN 12916

### 9.2. Other information

No information required.

## SAFETY DATA SHEET BIODIESEL

According to Regulation (EU) No 2015/830

### SECTION 10: STABILITY AND REACTIVITY

#### 10.1. Reactivity

There are no known reactivity hazards associated with this product.

#### 10.2. Chemical stability

Stable under normal temperature conditions and recommended use.  
Stable under the prescribed storage conditions.

#### 10.3. Possibility of hazardous reactions

Will not polymerise.

#### 10.4. Conditions to avoid

Should be kept away from sources of ignition.

#### 10.5. Incompatible materials

Avoid contact with strong reducing agent (oxidizing).

#### 10.6. Hazardous decomposition products

Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapours.

### SECTION 11: TOXICOLOGICAL INFORMATION

#### 11.1. Information on toxicological effects

##### Serious eye damage / irritation

May cause slight irritation.

##### Skin and respiratory sensitivity

Can cause skin disorders like eczema (dermatitis). When exposed to sunlight, a photo-sensitivity can be developed as evidenced by the persistent repetition of a dermatic rash.

##### Germ cell mutagenicity:

##### Genotoxicity - In Vitro/ In Vivo

Test data is credible but not sufficient for the classification.

##### Carcinogenicity:

Suspected cancer risk.

##### Reproductive Toxicity – Fertility/ Development

Test data is credible but not sufficient for the classification.

##### Specific target organ toxicity - single exposure:

No information required.

##### Specific target organ toxicity - repeated exposure:

No information required.

##### Aspiration hazard

May be fatal if swallowed and enters airways.

##### Inhalation

In high concentrations, vapours may irritate throat and respiratory system and cause coughing.

##### Ingestion

It is harmful if swallowed in small doses. If swallowed a greater amount causes nausea and diarrhea. If exceed to lungs damages during vomiting

## SAFETY DATA SHEET BIODIESEL

According to Regulation (EU) No 2015/830

### **Skin contact**

Prolonged or repeated contact with skin may cause redness, itching, irritation, eczema/cracking and oily acnes.  
May cause damage to the liver.

### **Eye contact**

May cause temporary eye irritation. Visual disturbances including blurred vision.  
In case of accidentally eye contact causes temporary blindness.

### **Fuel, diesel (CAS: 68334-30-5)**

<b>Toxic Dose 1 - LD 50</b>	>5000 mg/kg	(oral - rat)
<b>Toxic Dose 2 - LD 50</b>	>2000 mg/kg	(dermal - rabbit)
<b>Toxic Conc. - LC 50</b>	>4.6 mg/l 4h	(inhalation - rat)

## **SECTION 12: ECOLOGICAL INFORMATION**

### **12.1. Toxicity**

Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.  
Spillages prevent the transfer of oxygen by forming a film layer on the water surface.

### **Fuel, diesel (CAS: 68334-30-5)**

<b>LC 50, 96 Hrs, Fish</b>	54 mg/l	Joordanella floridae
<b>EC 50, 48 Hrs, Daphnia</b>	3.4 mg/l	Palaemonetes pugio
<b>IC 50, 72 Hrs, Algae</b>	20 mg/l	Fucus endatatus

### **12.2. Persistence and degradability**

This product is soluble in the soil without harming the environment.  
Volatile components in the product have the photochemical ozone formation potential.

### **12.3. Bioaccumulative potential**

There is no evidence that accumulating in the soil.  
Made with the identified hydrocarbon assessment shows that any structure does not meet the criteria of very bioaccumulation (vB), however some of meet the criteria of bioaccumulation (B). Low potential to bioaccumulate.

### **12.4. Mobility in soil**

Product is insoluble in water. Product spreads on water when certain components collapsed on the water system.  
Volatile components of the product will be dispersed into the atmosphere.

### **12.5. Results of PBT and vPvB assessment**

This product does not contain any PBT or vPvB substances.

### **12.6. Other adverse effects**

Very toxic to aquatic life with long lasting effects. Spills of petroleum products is generally dangerous for the environment.  
Volatile components in the product have the photochemical ozone formation potential.

## **SECTION 13: DISPOSAL CONSIDERATIONS**

### **General information**

Disposed of as hazardous waste. Waste must be treated as the product itself.

### **13.1. Waste treatment methods**

Empty containers, dispose of waste and residues in accordance with legislation of the local authority.  
Environmental manager must be informed of all major spillages.  
Make sure containers are empty before discarding. Empty containers must not be burned because of explosion hazard.  
Please recycle empty pack in accordance with legislation of the local authority. Do not re-use empty containers.  
Some products may remain in empty containers. Do not perform heat treatment without erased or removed danger signs or labels from empty containers.

## SAFETY DATA SHEET BIODIESEL

According to Regulation (EU) No 2015/830

### SECTION 14: TRANSPORT INFORMATION

#### 14.1. UN number

UN No. (ADR/RID/ADN)	1202
UN No. (IMDG)	1202
UN No. (ICAO)	1202

#### 14.2. UN proper shipping name

Proper Shipping Name	DIESEL FUEL
----------------------	-------------

#### 14.3. Transport hazard class(es)

ADR/RID/ADN Class	3
ADR/RID/ADN Class	Class 3: Flammable liquids.
ADR Label No.	3
IMDG Class	3
ICAO Class/Division	3
Transport Labels	

#### 14.4. Packing group

ADR/RID/ADN Packing group	III
IMDG Packing group	III
ICAO Packing group	III

#### 14.5. Environmental hazards

Environmentally Hazardous Substance/Marine Pollutant

#### 14.6. Special precautions for user

EMS	F-E, S-E
ADR transport category	3
Emergency Action Code	3Y
Hazard No. (ADR)	30
Tunnel restriction code	(D/E)
Limited quantities	5 L

#### 14.7. Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code

No data available.

## **SAFETY DATA SHEET** **BIODIESEL**

According to Regulation (EU) No 2015/830

### **SECTION 15: REGULATORY INFORMATION**

#### **15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture**

##### **UK Regulatory References**

Chemicals (Hazard Information & Packaging) Regulations.  
Fire precautions Act 1971.

##### **Environmental Listing**

No listing noted.

##### **Statutory Instruments**

Export of Dangerous Chemicals Regulations.

##### **Approved Code Of Practice**

Safety Data Sheets for Substances and Preparations.

##### **Guidance Notes**

Workplace Exposure Limits EH40. Introduction to Local Exhaust Ventilation HS(G)37. CHIP for everyone HSG(108).

##### **EU Legislation**

Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures.

#### **15.2. Chemical Safety Assessment**

No chemical safety assessment has been carried out.

### **SECTION 16: OTHER INFORMATION**

##### **Abbreviations used in safety data sheet**

ADR: European Agreement on International Carriage of Dangerous Goods by Road.

ADN: European Agreement on the International Carriage of Dangerous Goods by Inland Waterways.

RID: European Agreement on International Carriage of Dangerous Goods by Rail.

IATA: International Air Transport Association.

ICAO-TI: Technical Specification for Safe Transport of Dangerous Goods by Air.

IMDG: International Maritime Dangerous Goods.

TWA: Time weighted average

ATE: Estimated value of acute toxicity

EC No: European Community number

CAS: Chemical Theory Service.

LD50: Substance that causes 50% (half) death in the test animals group (Median Fatal Dose).

LC50: Substance concentration causing 50% (half) death in the test animals group.

EC50: Effective Concentration of the substance causing the maximum of 50%.

PBT: Persistent, Bioaccumulative and Toxic substance.

vPvB: Very Permanent, Very Biofriendly.

SEA: Classification, labeling, packaging regulation

DNEL: Derivative Inactive Level

PNEC: Estimated Unaffected Concentration

BHOT: Specific Target Organ Toxicity

##### **Information Sources**

This SDS is written based on the information received from rawmaterial supplier.

European Chemicals Agency (ECHA)

##### **Revision Comments**

This form is designed for the first time for this product.

**SAFETY DATA SHEET**  
**BIODIESEL**

According to Regulation (EU) No 2015/830

**Hazard Statements In Full**

H226	Flammable liquid and vapour.
H304	May be fatal if swallowed and enters airways.
H351	Suspected of causing cancer.
H411	Toxic to aquatic life with long lasting effects.
EUH066	Repeated exposure may cause skin dryness or cracking.

**Classification procedures**

Flam. Liq. 3 - H226	: Based on the test data.
Asp. Tox. 1 - H304	: Calculation method.
Carc. 2 - H351	: Calculation method.
Aquatic Chronic 2 - H411	: Calculation method.
